Dashboard Support – Statistical Insights and Graph Interpretation

1.Week 8 Contribution

Provided statistical findings and graph interpretations to support the development of the project dashboard.

2. Work Carried Out

Reviewed the statistical analysis and EDA results to identify important findings that could be presented through the dashboard. Interpreted graphs and summarized the patterns observed in the dataset. Shared relevant statistical insights to help communicate the project findings clearly.

3. Topics Researched / Studied

- **Statistical Insight Identification**
- **Graph Interpretation**
- **Histogram Analysis**
- **Box Plot Interpretation**
- **Scatter Plot Analysis**
- **Correlation Heatmap**
- **Data Storytelling**

- **Communicating Statistical Findings**

4. Outcome of My Contribution

Understood how statistical findings can be converted into meaningful dashboard insights. Improved the ability to interpret visualizations and communicate important patterns from the dataset.
